TECH 120

Jason mentions these techniques: diverge/converge, decomposition, inputs, props, cards, and relaxation. **Try at least 1 out of the 6 techniques mentioned.** Use the technique to generate a **total of 5 different solutions** or variations of solutions. Use this format for documentation. Notice bolded elements which are required for submission:

a. Diverge/converge technique documentation:
1. List a series of wild ideas

2. Criteria:
   Club identification
   Amount of money needed
   Why the club needs the money
   Access to meeting spaces
3. Narrow the list based on ideas that meet the criteria
   Fundraising campaigns
   Club funding request form
   Lecture hall reservation form

4. Expand the list of ideas meeting the criteria
     Fundraising campaigns
     Club funding request form
     Lecture hall reservation form
   + Meetings with clubs and faculty to discuss minimum funding availability for clubs
   + External sponsorships
   + Membership dues
   + Crowdfunding through Purdue students
5. Identify an additional criteria
     No student or club officer spending. (Money should come from externally - Purdue or other
organizations)
6. Narrow the list based on ideas that meet the criteria
     Fundraising campaigns
     Club funding request form
     Lecture hall reservation form
     External sponsorships
     Club & faculty meetings to discuss funding
7. **Submit documentation of steps 1-6 in a clear linear fashion. Provide sketches**
